

## Who We Are:

Student Outdoor Experience (SOE) is a 501c3 nonprofit organization that educates and empowers the next generation to lead the way in preserving our heritage and sport. In order to see this happen, we desire partnerships with individuals, companies and organizations that want to see a significant impact take place among the next generation. We equip students to accomplish this vision through education, mentorship and outreach.

## EDUCATION - MENTORSHIP - OUTREACH

## Membership:

THERE IS A PLACE FOR YOU! Your membership may sponsor a student for a year, but it can make a lifetime impact for that young outdoorsman/woman. There are different levels for membership of SOE and each member will be given SOE apparel, auto decals, personal membership certificates and more. There are many ways to be involved. You can lead or volunteer during an E-Club. You might allow a E-club to use your land or favorite fishing location for special events. You can also donate a tax-deductible contribution that will help fund clubs, curriculum, hunts, or fishing trips along with special events for our SOE students.

"Passing the experience from one generation to the next" - John Stamper, SOE President

## A DYNAMIC, INTERACTIVE, FUN, EXCITING HANDS-ON OUTDOOR CLUB

**Designed specifically for 4-12th grades!**

E-Clubs provide an opportunity for students to participate in a program where they can be mentored and motivated to become great sportsmen/women, conservationists and leaders. E-Clubs create exciting venues for students to become involved in the world of hunting, fishing and the great outdoors. Student Outdoor Experience has a desire for each student achieve their highest potential making them a successful leader in life.

E-Clubs are formed with the intention of introducing the next generation to hunting, fishing and shooting sports while equipping them to lead the way in preserving our heritage. All E-Clubs are provided with world class lessons which include a leadership trait, a practical how-to lesson, and an essential application exercise of what they learn.

If you have a heart for students and a desire to preserve our heritage, then SOE can help equip you to lead with that vision in mind. All it takes is a conversation with your state coordinator or call SOE National Office at 888.244.1611. There are people available to provide training and answer questions.
